INDEX

Anatomical Society's Proceedings, 309.
Anthony, Professor R., and Professor M. Boule, neopallial morphology of fossil men as studied from endocranial casts, 95.
Atresia of the ileum, a case of congenital, Cecil P. G. Wakeley, M.R.C.S. Eng., L.R.C.P. Lond., 65.
Aymard, J. L., Captain R.A.M.C. (Temp.), some new points on the anatomy of the nasal septum, and their surgical significance, 293.

Biceps flexor cruris, the action of the, Professor A. M. Paterson, 362.
Bladder, the form of the urinary, A. R. Thompson, Ch.M., F.R.C.S., 364.
Boule, Professor M., and Professor R. Anthony, neopallial morphology of fossil men as studied from endocranial casts, 95.
Bryce, Professor Thomas H., and Matthew Young, M.D., observations on metopism, 153.

Cheiroptera, the genitalia of the, Professor Frederic Wood Jones, 36.
Clavicle, on the proportions and characteristics of the modern English, Professor F. G. Parsons, 71.
Compton, Alwyne T., the intrinsic anatomy of the large nerve trunks of limbs, 103.
Cope, V. Zachary, B.A., M.D., M.S., F.R.C.S., the internal structure of the sphenoidal sinus, 127.
Cranial length and breadth, a note on some charts representing the relations of, W. L. H. Duckworth, M.A., M.D., Sc.D., 376.
Cyriax, Edgar F., M.D. Edin., some new facts in the anatomy of certain movements, 396.

Duckworth, W. L. H., M.A., M.D., Sc.D., notes on some measurements made on subjects in the dissecting-room, 167.
—— a note on some charts representing the relations of cranial length and breadth, 376.
Ductus caroticus and ductus arteriosus and their distribution in the Reptilia, Chas. H. O'Donoghue, D.Sc., F.Z.S., 137.

Fawcett, Edward, M.D., the primordial cranium of *Microtus amphibius* (water-rat), as determined by sections and a model of the 25-mm. stage, with comparative remarks, 309.
Femur, the supracondyloid tubercles of the, Y. G. Nadgir, M.S., F.C.P.S., 375.
Frazer, Professor J. Ernest, F.R.C.S., the formation of the pars membranacea septi, 19.

Genitalia of the Cheiroptera, Professor Frederic Wood Jones, 36.
—— Tupaia, Professor Frederic Wood Jones, 118.

Ileum, a case of congenital atresia of the ileum, Cecil P. G. Wakeley, M.R.C.S. Eng., L.R.C.P. Lond., 65.

Jones, Professor Frederic Wood, the genitalia of the Cheiroptera, 36.
—— the genitalia of Tupaia, 118.

Lucas, M. F., M.B., B.S., a case of double inferior vena cava, 69.

Mackenzie, W. Colin, M.D., F.R.C.S., F.R.S.E., the shape and peritoneal relationships of the spleen in Monotremes and Marsupials, 1, 278.
Macphail, S. Rutherford, M.D., note on length of vermiform process in 220 consecutive post-mortem examinations, 308.
Marsupialia, the development of the hypophysis cerebri, pre-oral gut, and related structures in the, Katharine M. Parker, B.Sc. Lond., 181.
Marsupials and Monotremes, the shape and peritoneal relationships of the spleen in, W. Colin Mackenzie, M.D., F.R.C.S., F.R.S.E., 1, 278.
Medulla oblongata and pons, the arteries of, Part III., J. S. B. Stopford, M.D., 252.
Metopism, observations on, Professor Thomas H. Bryce and Matthew Young, M.D., 153.
Microtus amphibius (water-rat), the primordial cranium of, as determined by sections and a model of the 25-mm. stage, with comparative remarks, 309.
Monotremes and Marsupials, the shape and peritoneal relationships of the spleen in, W. Colin Mackenzie, M.D., F.R.C.S., F.R.S.E., 1, 278.
Nadgir, Y. G., M.S., F.C.P.S., the supracondyloid tubercles of the femur, 375.

Nasal septum, some new points on the anatomy of, and their surgical significance, J. L. Aymard, Captain R.A.M.C. (Temp.), 293.
Neopallial morphology of fossil men as studied from endocranial casts, Professor M. Boule and Professor R. Anthony, 95.
Nerve trunks of limbs, the intrinsic anatomy of the, Alwyne T. Compton, 103.

O'Donoghue, Chas. H., D.Sc., F.Z.S., a note on the ductus caroticus and ductus arteriosus and their distribution in the Reptilia, 137.

Parker, Katharine M., B.Sc. Lond., the development of the hypophysis cerebri, preoral gut, and related structures in the Marsupialia, 181.
Pars membranacea septi, the formation of the, Professor J. Ernest Frazer, F.R.C.S., 19.
Parsons, Professor F. G., on the proportions and characteristics of the modern English clavicle, 71.
Paterson, Professor A. M., the action of the biceps flexor cruris, 362.
Pisiform, the human, R. H. Robbins, M.D. Cantab., 150.
Pons and medulla oblongata, the arteries of the, Part III., J. S. B. Stopford, M.D., 252.
Pre-maxilla, absence of, Cranston Walker, M.D., Ch.B., B.Sc., 392.

Rahman, M. Amin Abdel, a subject with complete transposition of the viscera, 304.
Reid, Douglas G., M.B., Ch.B. Edin., M.A. Trin. Coll. Camb., bilateral duplication of the ureter, 30.
Retinacula of Weitbrecht, a note on the, Thomas Walmsley, M.B., 61.
Robbins, R. H., M.D. Cantab., the human pisiform, 150.

Sphenoidal sinus, the internal structure of the, V. Zachary Cope., B.A., M.D., M.S., F.R.C.S., 127.
Spleen in Monotremes and Marsupials, the shape and peritoneal relationships of the, W. Colin Mackenzie, M.D., F.R.C.S., F.R.S.E., 1.
Stopford, J. S. B., M.D., the arteries of the pons and medulla oblongata, Part III., 252.

Thompson, A. R., Ch.M., F.R.C.S., the form of the urinary bladder, 364.
Tupaia, the genitalia of, Professor Frederic Wood Jones, 118.

Ureter, bilateral duplication of the, Douglas G. Reid, M.B., Ch.B. Edin., M.A. Trin. Coll. Camb., 30.

Vena cava, a case of double inferior, M. F. Lucas, M.B., B.S., 69.
Vermiform process, note on length of, in 220 consecutive post-mortem examinations, S. Rutherford Macphail, M.D., 308.
Viscera, a subject with complete transposition of, M. Amin Abdel Rahman, 304.

Wakeley, Cecil P. G., M.R.C.S. Eng., L.R.C.P. Lond., a case of congenital atresia of the ileum, 65.
Walker, Cranston, M.D., Ch.B., B.Sc., absence of the pre-maxilla, 392.
Walmsley, Thomas, M.B., a note on the retinacula of Weitbrecht, 61.

Young, Matthew, M.D., and Professor Thomas H. Bryce, observations on metopism, 153.

PRINTED IN GREAT BRITAIN BY NEILL AND CO., LTD., EDINBURGH.
